

Morehouse Fields Get Restrooms

Athletes and everyone else who goes to Morehouse Park to play ball or watch the game no longer have to use portable toilets.

Chris Barcello of Barcello & Son Septic Service donated his time to put in the septic system. Barcello joined First Selectman Adam Dunsby and other town officials to mark the opening of new restroom facilities.

Members of the selectmen's office and the public works, park and recreation and health departments attended the official tape cutting. The restrooms will close during the winter months and open for spring sports.
