

Support of Easton Budgets

To the Editor:

I am writing to express my full support of the Easton budgets and in particular the education budget. I have lived in Easton for over 27 years and have two daughters who went through the Easton schools and Joel Barlow. They both received an exceptional education which prepared them to be successful in college and in their individual careers. As a resident with no children in the school system, I think it's our responsibility to educate the current generation of students utilizing the recommendations of the experts on the Board of Education. I fully support their proposed budget to move these students forward into this competitive world.

Many thanks to the Board of Finance for the work that you do.

Stay well!

Susanne Smith
