

# Letter: State Rep. Anne Hughes, D-135th, Champion of the Environment

---

To The Editor:

Anne Hughes was a leading voice in the last legislative session that delivered many wins for the environment including significant investment in offshore wind, the electrification of the state fleet and passage of the state water plan.

Anne knows that a protected and clean environment benefits not only the residents of our district but our neighbors in surrounding towns and the entire state. This spirit of “we are all in this together” is why her voice is heard and respected in Hartford.

Vote for the environment! Vote for Anne Hughes.
