

# Letter: Elect Michelle McCabe to State Senate

---

To the Editor,

Please support of Michelle McCabe for State Senate. She has spent her career taking on some of the biggest challenges that face our community and will head to Hartford ready to fight for gun violence prevention, affordable healthcare, small businesses and the workforce, and building a green economy.

Michelle will examine the fault lines exposed by the coronavirus and implement changes to strengthen our economy, our local autonomy, our healthcare system, and our residents and our ability to respond to future disruption. Michelle will examine and approach all issues and policies through the lens of equity, sustainability, and resiliency.
